## A MAGICAL PALACE OF MILK TEETH

*We request your pearly whites to build our palace stalagmites like a coral castle under the water, given by your son or daughter who, still rewarded in their sleep, agree to let the fairies keep their baby teeth safe as they fall, treasured within the Palace walls*

## WE REQUEST YOUR PEARLY WHITES

### A Palace? Made of teeth?

PALACES is a unique art project which will create a magical sculpture out of milk teeth donated by the public.

The PALACE will grow over time like a coral reef, to form a fantastical palace-like structure made of thousands of milk teeth donated by children around the UK.

*We need your milk teeth in order to create the PALACE!*

### Where will my tooth go?

Your tooth will be carefully looked after by our own tooth fairy until it is ready to be added to the PALACE, along with the thousands of other milk teeth donated.

PALACES is a public artwork - as it takes shape, it will be exhibited at arts and science venues across the country,

**LEAVE THIS TOOTH TOKEN FOR THE TOOTH FAIRY!**
